

Roman Lappat Prestige Miniature Art Projects

Thank you for your support!

With collecting my miniature art you help me to continue my passion, my painting, my teachings, my life and you will own a unique artwork that only exists once on this planet. Thank you for collecting my art.

Thank you!

A handwritten signature in black ink. The name 'Lappat' is written in a stylized, cursive font. To its right, the name 'Roman' is written in a similar cursive style. A long, sweeping horizontal line extends from the end of 'Roman' across the page.

INTRODUCTION

WHO I AM?

Welcome

to my miniature-art catalogue of my available, unique original prestige miniature art. You can find my regular miniature art that I got for sale via my [homepage](#).

My name is Roman Lappat and I am a self-employed artist, mainly focusing on miniature art, modelling and teaching it. You can find more information about me and about my work via www.romanlappat.com.

I am the founder of the blog “Massive Voodoo”, which spreads the word and the beauty of this form of art globally. I am also teaching miniature painting classes all internationally and try to bring everyone attending to one of my classes a step further in his personal painting experience. During my self-employment I painted over 3000 miniatures and taught over 5000 students.

Miniature Painting is my work and being self-employed means that I do not have many of my models in my own cabinet. I have to sell them to pay my rent, my taxes, my insurances and my bread. Just like everyone else has to do with his earnings from his job and with this I did not tell you yet that I also have the wish to have my own family in the future. Well, being a Miniature Painter is definitely not the common every day job, but I will never regret my decisions in life. Painting Miniatures and teaching it gives me a lot and the experiences I have been able to collect on my creative journeys and the people I meet let me see the world with a different view, with a sharp mind, and trained eagle eyes.

Is Miniature Painting Art?

Well, I often answer this question by saying the following: Art is happening in oneself. If you see something and consider it as a form of art then it is art for you. Let no one else tell you what you should see as art.

INTRODUCTION

WHY I CHARGE WHAT I CHARGE?

First of all and most important:

Thank you for your interest in my work. I always put a little bit of my soul in each brushstroke and in the end of a day a painted miniature has many of them. I feel very honoured that you are interested in my creations and want to make one of them your own. You will have a little part of my soul at home if you decide so.

Please keep in mind by reading the following descriptions that I am doing what I do for a living. It's my daily work and I have to pay my rent and bread from my sales. There is no offence in telling you that. I am telling it because there are people who do not understand why I ask what I ask for my work and the hours I did put into these projects.

If you decide to buy one of my prestige miniature art projects, please know that you are helping me live. You are buying a piece of me, a piece of my heart, of my soul and emotions I put into the project while creating it. You are not only buying a project, you are also buying the experience I collected over the years to create it.

My miniatures have won several awards at different miniature shows all over Europe in the last years, but I do not like showing off with miniature awards and I will not start with it in this catalog.

Not very often it is easy to calculate a charge on only calculatable terms. Very often I find myself sitting before a project that I plan to sell and see a factor that is not allowing to put calculations on it: Emotions. I do paint with them. It is because painting is a way to heal my soul and understand my life. Painting and the outcome of my three dimensionl canvases mean a lot to me as often you find me putting in raw emotions in my work.

IMPORTANT NOTE:

The photo quality in this document is not the best due my wish to keep this file small. Please check back with the additional links (clickable) below each project to get directed to better photos of the figure or even a small video. When I say "on high quality display plinth " I mean a plinth by Dino Pivato from Italy, hand-selected for this project.

Questions left?

Please feel free to ask me any questions you got left after this informational PDF.

My email address is: jarhead@massivevoodoo.com

I am happy to answer your questions.

Thank you for your time!

Many thanks to everyone who supports me in my passion, art, work, craft and life. Be sure you will have a piece of my heart and soul at your home with every project you collect from me.

"Just to let you know that everything arrived safely and well. Figures just look great. Good to see them "live" to get an idea of your color studies. Very beautiful as outcome."

- Marc

"Just wanted to say thank you very much for adding in the Miniature Art book with Rain of vengeance! The piece is in good hands and I absolutely love it - it's flawless!!"

- Grant

"Package arrived yesterday, everything is safe and sound. Packaging was extremely professional, just as you had mentioned. In terms of the piece itself. I am absolutely blown away. I know this was a purchase, but I will forever treasure this as a gift. Thank you for allowing me to bring this into my home. Thank you for the special signature as well. Everything is truly exemplary. Thank you for sharing this with me."

- Joshua

"Just to let you know the Space Wolf Lord arrived yesterday, and in one piece! It's a wonderful figure - so much to enjoy and learn from here, and I feel reinvigorated for my painting!"

- Dave

PROCESS & SHIPPING

WHY I CHARGE WHAT I CHARGE?

Pricing

The following points sum up reasons and explanations on the fee I ask for my artwork. These points together make a final charge and I want to keep my offers as transparent as possible.

Time

The time I worked on a project for planning, preparation, eventual conversion work, basing and painting.

Material costs

Preparation material, plinth, the figure, colours, brushes, rent I pay for the place where I work.

Shipping

Shipping costs to your location are also included in the charge I ask if you are based in Germany. Additional shipping costs to all locations outside Europe. I always ship with regular tracked DHL shipping. If you want an upgrade with UPS or DHL Express the additional shipping costs will be on you.

You can find explanations on my high quality packing here:

http://massivevoodoo.blogspot.com/2016/12/tutorial-how-to-pack-your-minia-tures_21.html

Some projects are impossible to be shipped as the danger to damage them is too high. Therefore a pickup by you or a transport by me is possible. We just have to talk and find solutions to maybe meet at a figure show, have friends travelling close by or to meet up for a coffee somewhere on this planet.

Taxes

As I am working as self-employed artist you will also find my tax calculation included in the prices I do charge.

Payment

Payment can be done via Paypal what I prefer or in Germany/Europe via bank transfer. There is also the option to pay in two, three or more monthly rates or even more months. Let's talk. We find a solution together. My paypal adress is: jarhead@massivevoodoo.com

PROCESS & SHIPPING

Process

You might wonder how the progress is if you decide to buy one of my projects:

1.
After I received your mail telling me your expression of interest in my work, I will send out this PDF to you.
2.
I would be happy to receive a response, even if you decide not to make any of the projects yours. If you decide to buy one project, we will have further talk via mail.
3.
As soon as you paid the project I will take preparation to make it ready for shipping. This might take some days, at maximum two weeks as in some cases I have to order new plastic containers to be perfect for the projects safe transport. I need your adress.
4.
As soon as I am done with the packing I make the parcel ready for shipping and keep you updated about the shipping status.
5.
As soon as the project arrives at your place I am happy to hear a response, as I really do not feel very comfortable with sending delicate and tiny miniature projects.
6.
Giving my best in the preparation for a safe transport I can tell that no major damage occured to the projects I sold so far. Sometimes a small tiny part breaks, even I packed ultra-secure, but a drop of superglue helps get it back on spot. I will not take any responsibility for damaged items at all. If such a case occurs we will contact the postal service. That is why I always ship parcels with insurance.
